faq's

Q. What do I need to install on my mobile phone or desktop?

A. Nothing. Our solutions are 100% web based.

Q. What do I need to change or configure in SAP to use your solutions?

A. Our core solution is 'transport free'. It uses standard SAP functionality and will integrate seamlessly with your system.

Q. What phones and desktop browsers do you support?

A. We support most modern Smartphone's including Blackberry, the iPhone and Windows Smartphone. For the desktop we are also compatible with Internet Explorer 6.0+, Firefox and most other browsers.

Q. Do I need SAP workflow?

A. For purchase order and requisition approval SAP workflow is not required. We monitor your standard SAP release strategies.

Q. What's my next step?

A. Contact us for an online demonstration or a 30 day trial.

- Windows 2003 server with IIS 6.0 or greater.
- SQL Server 2000 or greater
- Microsoft .Net Framework 2.0 or greater
- Minimum 50mb file space
- Minimum 500mb database size

ABOUT 10 SECONDS SOFTWARE

At 10seconds Software we have a passion for making people more productive through smart software solutions that help them focus more on what they really want to accomplish, and less on mundane, repetitive computer tasks.

Based in Sydney, Australia our primary focus is to develop solutions 'plug and play' or what we call 'transport free' productivity solutions for SAP. This means we can provide downloadable software that 'just works' against your SAP Enterprise environment so your business can start enjoying the benefits immediately.

your comments...

"With ExpressPO we are saving one minute per purchase order or 60 hours of manager's time per month!"

"it worked right out of the box"

"This really is clever software and the new look is fantastic!"

"your solution will give us mobile approvals with a minimum of effort and cost"
